## Online Learning

The program structure includes introductory courses in Medical Terminology, Anatomy and Physiology, Medical Law, and Ethics as well as Basic Medical Math that are all conducted online live with an instructor. Core courses which include Ultrasound Physics, Abdomen and Small Parts, OBYGN and Vascular are conducted online and on ground for hands on lab experience. During the Clinical Externships, students will work at affiliated clinical sites gaining more hands-on experience with real patients. All General Education courses are delivered as IDL (Interactive Distance Learning) and will be taught fully online.

## Career Highlights & Opportunity

According to the U.S. Bureau of Labor Statistics\*, Overall employment of medical sonographers and cardiovascular technologists and technicians is projected to grow 10% from 2021 to 2031, faster than the average for all occupations. Sonographers can specialize in one or more areas including Vascular Technology, Obstetric and Gynecologic, Echocardiography, breast and abdominal.
