

STATE LICENSURE DETERMINATION

Direct Notice Policy for Programs leading to Licensure or Certification

High Desert Medical College determines the student's physical location during the admissions process. Applicants share their address on the Application for Admission. Their address is verified through a government issued ID that is collected as part of the admissions process.

High Desert Medical College provides notice as to the determination of qualification for licensure for states outside of California via our website.

Students at High Desert Medical College can update their personal information, including address, by completing a Student Information Form (please see your campus Registrar). Please note, students must notify the institution if they plan to relocate out of state.

If a student moves out of California, or if the determination of qualification for licensure for a state on the list changes, High Desert Medical College provides direct notice to all students. Direct notice is provided via email within 14 days after the day the change in determination is identified by Legacy Education.

State by State Disclosure for Programs leading to Licensure or Certification

High Desert Medical College has determined if the program meets the educational requirements for specific state licensing or credentialing required for employment.
